Most standards are developed within Air Force instructions or technical orders. They are what sets us apart from our civilian counterparts. Webster's dictionary defines a standard as "something established by authority, custom, or general consent as a model, or example."

Why enforce the standards > U.S. Air Force > Display

The Technical Standards for Port and Harbour Facilities has been used as the national standard based on Article 56-2 of Port Act in Japan when a harbor facility is newly planned, constructed, maintained, rehabilitated, or upgraded. The origin of the Standards can be dated back to 1950 when the official design manual for harbor
